PREFACE

The sixth annual *Graduate School Data Book* includes a collection of information designed to answer frequently asked questions about Illinois State University's Graduate School. The information is organized in four major sections: admissions, enrollment, degrees and graduate certificates, and stipends and waivers. An appendix offers information on the interpretative data used to score reports and an institutional profile from the Survey of Earned Doctorates.

Illinois State University began offering master's degree programs in 1943; doctoral work was introduced in 1962. In Fiscal Year 2005, the University offered 41 master's programs (including the Master of Fine Arts and the Master of Business Administration), seven doctoral programs (Biological Sciences, Curriculum and Instruction, Educational Administration, English Studies, Mathematics Education, School Psychology, and Special Education), a Specialist in School Psychology and eleven graduate level certificates. Additional information on graduate education is available from the Graduate School on-line at www.grad.ilstu.edu or by telephone at 309.438.2583.

Educating Illinois 2003-2010: An Action Plan for Distinctiveness and Excellence presents Illinois State University's goals and objectives for the future. *Educating Illinois* identifies a series of outcomes that emanate from each goal and performance indicators that allow the University to document its progress toward achieving stated goals and objectives. Information concerning applicable *Educating Illinois* goals and reported progress is presented throughout the *Graduate School Data Book*. A copy of *Educating Illinois* is available on-line at <http://www.educatingillinois.ilstu.edu>.

The materials included in the *Graduate School Data Book* are available on-line at: www.pir.ilstu.edu/universityfacts/graduate_databook.

Educating Illinois 2003-2010 contains a performance indicator to develop, implement and support a plan to make discipline specific graduate assistant stipends competitive with national competitor institutions. While comparative data for benchmark schools are not yet available, the information above is displayed to document increases in average monthly graduate assistant stipends.

Appendix B contains a preliminary analytical writing score distribution. The data are based ONLY on examinees who tested between October 1, 2003 and June 30, 2004. It is likely the examinees on whom the percentiles were calculated scored higher on the analytical writing section than will be true of the entire GRE population because:

1. examinees who cannot produce good analytical writing essays may have tested before analytical/writing was added to the General Test, and/or
2. examinees who do produce good analytical writing essays may have wanted to test between October and February to show their proficiency in this area on their applications.

One major difference in the October 2002-June 2004 test-taking population is illustrated in the following chart, which shows that for the October 2002-June 2004 time period, U.S. citizens whose primary language is English represent about 67% of the test takers, whereas in a more typical year, they represent only about 57% of the test takers.

<u>Test-taker Groups</u>	<u>Oct-01 - Jun-02</u>	<u>Oct-02 - Jun-03</u>
U.S. Citizens - primary Language is English	57%	67%
All other test-takers	43%	33%

Note: A total of 98.2 percent of Illinois State University's doctorate recipients responded to the Survey of Earned Doctorates in 2003. Except for those reported for the gender variable, all percentages are based on total responses, with missing data excluded. Percentage totals may not sum to 100 because of rounding. Percents calculated on a small number of cases should be interpreted with caution.
