PREFACE

September 2007

The eighth annual *Graduate School Data Book* includes a collection of information designed to answer frequently asked questions about Illinois State University's Graduate School. The information is organized in major sections: overview, programs, degrees conferred and resources, reference, and a definitions section. An appendix offers information on the interpretative data used to score reports and an institutional profile from the Survey of Earned Doctorates.

Illinois State University began offering master's degree programs in 1943; doctoral work was introduced in 1962. In Fiscal Year 2007, the University offered 41 master's programs (including the Master of Fine Arts and the Master of Business Administration), eight doctoral programs (Biological Sciences, Curriculum and Instruction, Educational Administration, English Studies, Mathematics Education, School Psychology, Special Education, and Doctor of Audiology), a Specialist in School Psychology, and eleven graduate-level certificates. Additional information on graduate education is available from the Graduate School on-line at www.grad.ilstu.edu or by phone at 309.438.2583.

Educating Illinois 2003-2010: An Action Plan for Distinctiveness and Excellence presents Illinois State University's goals and objectives for the future. *Educating Illinois* identifies a series of outcomes that emanate from each goal and performance indicators that allow the University to document its progress toward achieving stated goals and objectives. Information concerning applicable *Educating Illinois* goals and reported progress is presented throughout the *Graduate School Data Book*. A copy of *Educating Illinois* is available on-line at: www.educatingillinois.ilstu.edu.

OVERVIEW

STRATEGIC PLAN

Our Mission

We at Illinois State University work as a diverse community of scholars with a commitment to fostering a small-college atmosphere with large-university opportunities. We promote the highest academic standards in our teaching, our scholarship, and the connections we build between them. We devote all of our resources and energies to creating the most supportive and productive community possible to serve the citizens of Illinois and beyond.

Our Heritage

The first public university in Illinois, Illinois State University was founded in 1857 as a normal university to prepare the state's teachers. Our institution has a rich heritage as the state's leader in all facets of teacher education – from classroom instruction to educational administration and national policy setting. Illinois State is the only public, doctoral research university in Illinois, offering more than 160 major/minor options in six colleges. The university's early emphasis on teacher preparation is reflected in our values-based commitment to creating an optimal learning environment for all Illinois State students, whether undergraduate or graduate, on campus or off campus.

Our Vision & Values

By acting on our values in every respect, Illinois State University will come to occupy a unique position of strength and visibility among the institutions of higher education in Illinois, nationally, and internationally. Illinois State University will continue to be the first-choice public university in Illinois for high-achieving, motivated students who seek an individualized educational experience combined with the resources of a large university.

Individualized Attention: Providing the supportive environment characteristic of a small college through an innovative general education program, strong student-faculty-staff connections, superior student services, and a focus on each student as an individual, with unique educational needs and potential: Illinois State is a campus dedicated to placing the learner at the center of teaching and scholarship.

Public Opportunity: Assuring students access to the educational, research, and service opportunities characteristic of a large university, including a wide range of high-quality programs, faculty mentors who are scholars and creative artists of repute in their disciplines, and the support of outstanding facilities, technologies, and library resources.

Active Pursuit of Learning and Scholarship: Working with students as partners in their educational development inside and outside of the classroom so that students come to appreciate learning as an active lifelong process; contributing new knowledge through research, creative artistry, and other forms of individual scholarship in which all students, faculty, and staff may participate.

Diversity: Encouraging community and an informed respect for differences among students, faculty, and staff by fostering an inclusive environment characterized by ethical behavior and social justice that prepares students to be fully engaged participants in a global society; a diverse faculty, and staff mentoring a diverse student population, enhancing pedagogical, research, and service functions.

Innovation: Supporting disciplinary excellence and personal growth of students, faculty, and staff through knowledge development and innovative applications in undergraduate and graduate study, pedagogy, research, creative activities, and public service.
